**To the Honorable Members of the Board of Supervisors
To the Citizens of Fluvanna County
County of Fluvanna, Virginia**

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) for the County of Fluvanna (the “County”) for the fiscal year ended June 30, 2013. The *Code of Virginia* requires that local governments publish, within six months of the close of each fiscal year, a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants. This report has been prepared by the Department of Finance in accordance with the standards of financial reporting as prescribed by the Governmental Accounting Standards Board (GASB), the Financial Accounting Standards Board (FASB) where applicable, and the Auditor of Public Accounts (APA).

This report consists of management’s representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and fairness of presentation of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed to ensure compliance with applicable laws, regulations and County policies, to safeguard the County’s assets, and to compile sufficient reliable information for the preparation of the County financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County’s comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and accurate in all material respects, and presents fairly the financial position and results of operations of the various funds and component units of the County.

This report is intended to provide informative and relevant financial information for the citizens of the County, the Board of Supervisors (the Board), investors, creditors and other concerned readers. All are encouraged to contact the Department of Finance with any comments or questions concerning this report.

The County's financial statements have been audited by Robinson, Farmer, Cox, Associates, L.L.P., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2013, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation.

The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the County's financial statements for the fiscal year ended June 30, 2013 are fairly presented in all material respects, in conformity with GAAP. The auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the County's compliance with the financial and administrative requirements applicable to each of the County's major federal programs. These reports are available in the Compliance Section of this report.

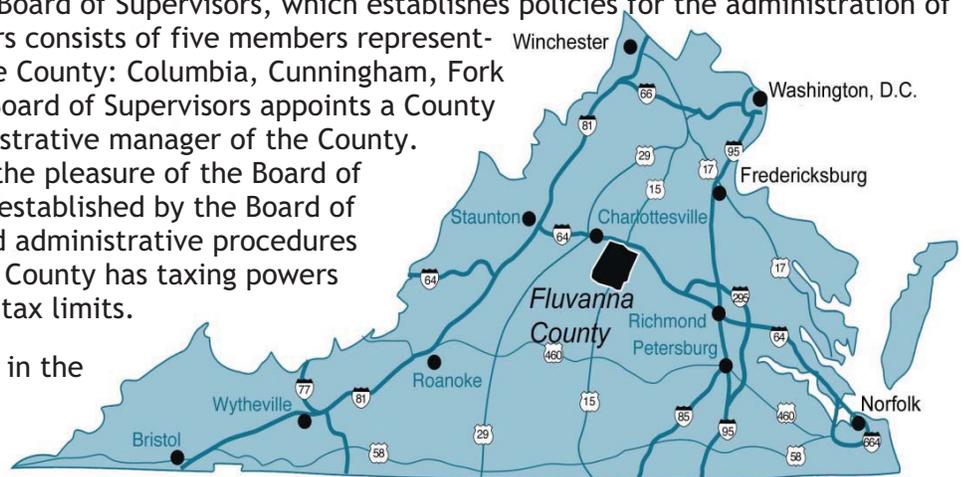

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE COUNTY

The County was established in 1777 after several divisions from other counties with the final division from Albemarle County. Fluvanna County was once part of Henrico County, one of the original shires of the Virginia Colony. In 1727, Henrico County was divided and Fluvanna County became a part of Goochland County. Goochland County was divided in 1744 and Fluvanna became a part of Albemarle County. In 1777, Albemarle County was divided to create Fluvanna County. The County was named for the Fluvanna River, the name given to the James River west of Columbia. Fluvanna is Latin for "Anne's River" - in honor of Queen Anne of England. Palmyra was made the county seat in 1828 and remains the county seat today. It quickly became a thriving town after the courthouse was completed in 1830. While Palmyra has changed and modernized over the years, it still possesses an aura of tranquility.

The County operates under the traditional board form of government as defined under Virginia law. The governing body of the County is the Board of Supervisors, which establishes policies for the administration of the County. The Board of Supervisors consists of five members representing the five electoral districts in the County: Columbia, Cunningham, Fork Union, Palmyra, and Rivanna. The Board of Supervisors appoints a County Administrator to serve as the administrative manager of the County. The County Administrator serves at the pleasure of the Board of Supervisors, carries out the policies established by the Board of Supervisors, and directs business and administrative procedures within the County government. The County has taxing powers subject to statewide restriction and tax limits.

Fluvanna County is centrally located in the heart of Virginia, 120 miles south of Washington, D.C., 60 miles west of Richmond, Virginia, and 25 miles southeast of Charlottesville, Virginia. The location of the County can be described as the Piedmont Plateau Physiographic Province and is characterized by gently rolling hills. The County encompasses a land area of

PROFILE OF THE COUNTY: (CONTINUED)

282 square miles. Two U.S. primary and two State primary routes traverse the County. Fluvanna has a strong economy with manufacturing, trade services, and agricultural sectors. Manufacturing activity includes: electrical power and iron castings. Major service industries include: health care, education, and government. The County is bounded, in effect, by Interstate 64 to the north and by the James River to the south. The Rivanna River, the Commonwealth's first designated "Scenic River", bisects the county and joins the James at the historic town of Columbia. Agriculture remains important in Fluvanna's economy, two-thirds of the county's land is forested with most open land devoted to farming and grazing.

In addition to the elected Board of Supervisors, five constitutional officers are elected. These officers include the Clerk of the Circuit Court, the Sheriff, the Commonwealth's Attorney, the Treasurer, and Commissioner of the Revenue. Two officials are elected to serve as County representatives on the Thomas Jefferson Soil and Water Conservation District Board.

The departments of the Board of Supervisors, County Administrator, County Attorney, Commissioner of the Revenue, Treasurer, Information Technology, Finance, and Registrar constitute the general government administration of the County. The County Administrator, Constitutional officers, along with the Directors of the various departments, implement the laws and policies of the County by developing and executing the procedures that are necessary in order to provide general support services to residents of the County.

The Court system is made up of the Circuit Court, General District Court, Juvenile and Domestic Relations Court, Clerk of the Circuit Court, Court Services, and Commonwealth's Attorney. The public safety operations of the County include the Sheriff, Emergency Communications, Emergency Management, Fire and Rescue Squads, Animal Control, Building Inspections, Blue Ridge Juvenile Detention, and Central Virginia Regional Jail.

Public Works category is comprised of the departments of facilities, utilities, and public works which administers capital projects of the County and oversees solid waste management, sewer, and the Fork Union Sanitary District.

The Department of Social Services determines eligibility for public assistance programs, which are mandated by federal and state law. The Community Services Board provides mental health, mental retardation, and substance abuse services. In addition, it provides adult services, group home services, and supervised living services. Fluvanna is served by the Thomas Jefferson Health District along with Charlottesville, and Albemarle, Greene, Louisa, and Nelson counties.

Parks and Recreation provides and promotes leisure services including park activities, educational and hobby programs, senior citizen activities, youth programs, adult athletic leagues, special events, and other activities for County residents. The Fluvanna County Library provides public library service to the County through one site and one satellite book return.

The Planning and Zoning Department provides numerous services that relate to the well-being and orderly development of the community. Primary areas of responsibility include the Comprehensive Plan, current and long range planning, and code enforcement. This Department also maintains the geographic information system (GIS) for developing, maintaining, and distributing geographic related data sets and applications. The Economic Development Department has responsibility for attracting and retaining high quality business and industry.

PROFILE OF THE COUNTY: (CONTINUED)

The County provides education through its own school system administered by the Fluvanna County School Board (the School Board) and promotes commerce through the Economic Development Authority of Fluvanna County, Virginia (the EDA). These agencies have been classified as discretely presented component units in the financial reporting entity because they are legally separate entities for which the County is financially accountable. The EDA has the power to issue tax-exempt industrial development revenue bonds on behalf of qualifying enterprises wishing to utilize that form of financing, as well as to finance County facilities. Those bonds do not constitute a debt or pledge of the faith and credit of the County, but represent limited obligations of the EDA payable solely from the revenue and receipts derived from the projects funded with the proceeds.

The School Board administers its own appropriations within the categories defined by the Commonwealth of Virginia. The Board of Supervisors' financial accountability over the School Board is also limited to approving transfers to the education funds and authorizing school debt issuances. The Fluvanna County Public Schools is the single largest service provided by the County. The elected School Board is composed of five members who represent the five electoral districts. The School Board appoints a Superintendent to administer the policies of the School Board. The school system is comprised of one high school, one middle school, and two elementary schools. The combined enrollment as of June 2013 totaled 3,669 students. The Fluvanna High School Completion Rate is 94.87% (VA On Time Graduation Rate) with 86% of graduates seeking higher education.

Virginia law requires the County to maintain a balanced budget in each fiscal year. The annual budget serves as the foundation of the County's financial planning and control. These budgetary controls ensure compliance with provisions embodied in the annual appropriated budget approved by the Board of Supervisors. Activities of the general fund and capital projects fund are included in the annual appropriated budget. All agencies and departments of the County are required to submit requests for appropriation to the County Administrator by the date established in the budget calendar. The County Administrator uses these requests as the starting point for developing a proposed budget. Then, the County Administrator presents the proposed budget to the Board who begins a series of work sessions. The Board is required to hold a public hearing on the proposed budget and to adopt a final budget by no later than June 30th, the close of the County's fiscal year, as required by 15.2-2503, *Code of Virginia* of 1950, as amended. A budget is not required for fiduciary funds. The appropriated budget is prepared by fund and function (e.g., public safety) with the appropriations resolution adopted by the Board of Supervisors placing legal restrictions on expenditures at the fund and function level.

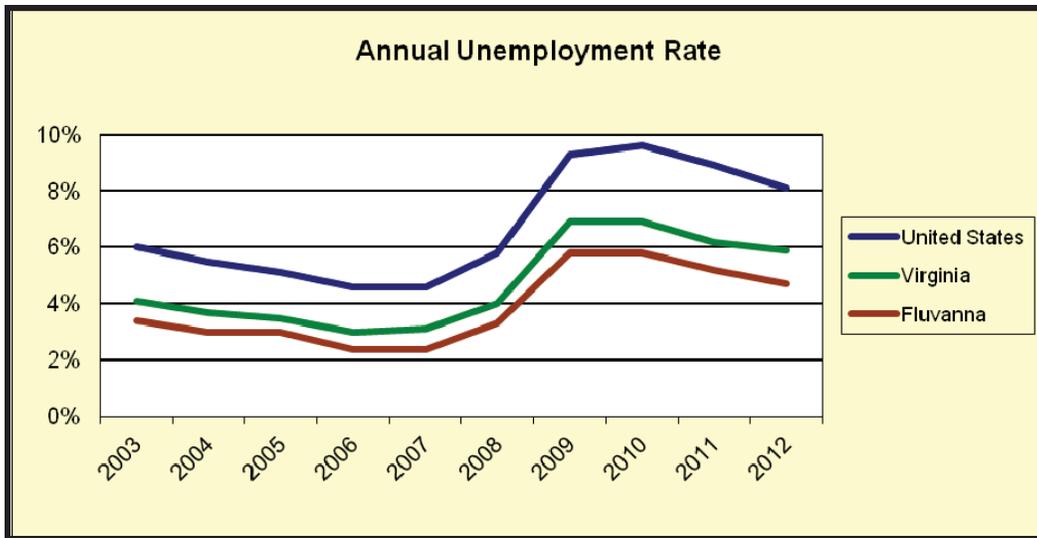

When necessary, the Board of Supervisors approves amendments to the adopted budget in accordance with 15.2-2507, *Code of Virginia* of 1950, as amended. Budgetary compliance is monitored and reported at the department level. The budget is implemented through appropriations that the Board makes annually, with supplemental appropriations made as required. These appropriations, except those to incur mandated expenditures, may be greater or less than contemplated in the budget.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Fluvanna County operates.

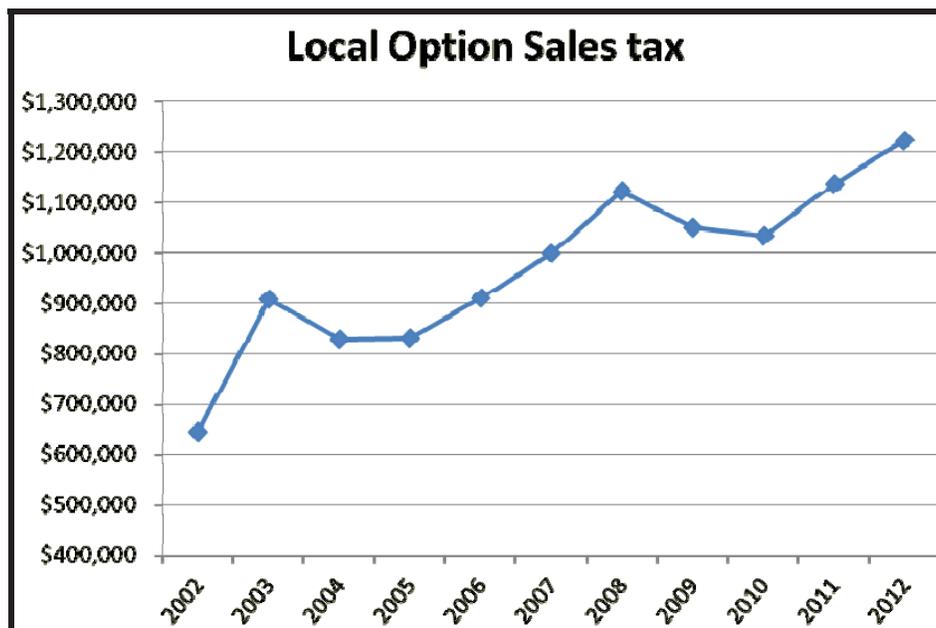

Local Economy

Based on available economic data, the local unemployment rate was 4.9% at June 30, 2013, 0.2% lower than the 5.1% at June 30, 2012. The local unemployment rate compares favorably to the state and national rate of 5.9% and 7.6%, respectively. The predominant industries are government, education, construction, health care, waste management, and retail trade. As seen in the chart below, while unemployment in Fluvanna County continues to compare favorably to the state and national numbers, unemployment remains higher than at pre-recession levels.

Source: Virginia Employment Commission, Local Area Unemployment Statistics

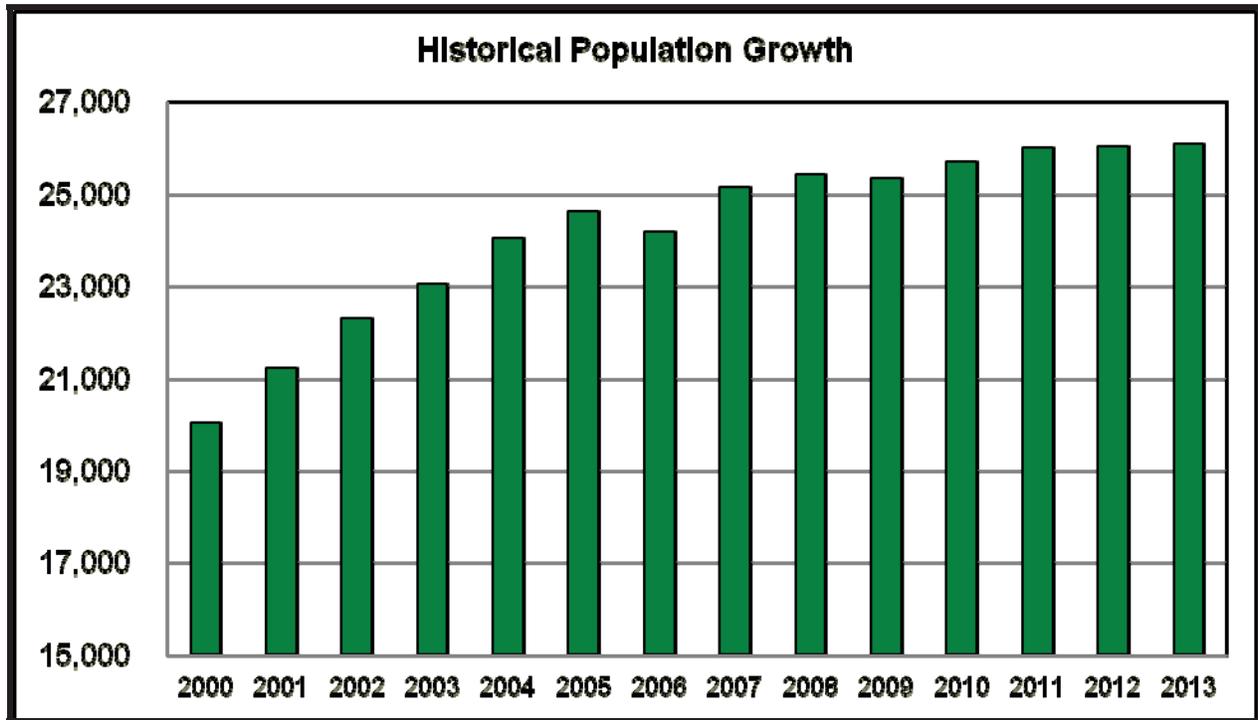

Sales tax revenue can also be an indicator of the overall condition of the County's economy. As seen in the chart below, there has been strong growth in sales tax revenue in Fluvanna County over the past ten years. The effects of the recession are seen in 2009 and 2010; however, 2012 sales tax revenue increased 7.5% over 2011 and has reached a historical high.

Source: Virginia Department of Taxation

FACTORS AFFECTING FINANCIAL CONDITION: (CONTINUED)

The population growth in the County has increased over the years due to competitively priced housing, a rural setting, and approximation to major urban centers including Charlottesville, Richmond, and Washington, D.C. Fluvanna County saw an increase of 28% between the 2000 and the 2010 census. Per estimates, population growth has moderated in recent years.

Source: Weldon Cooper Center for Public Service

The County received their first formal public credit ratings in July 2008. Standard & Poor’s provided a rating of AA- with remarks of “strong wealth and income levels, developing local economy has access to the Charlottesville core based statistical area, and solid financial performance with positive operating results and strong reserves.” Moody’s provided a rating of Aa2 (recalibration of ratings under the Global Scale) with remarks of “favorable location along Interstate 64 between the major employment centers of Charlottesville (G.O. rated Aaa) and Richmond (G.O. rated Aa3/stable outlook) is expected to support ongoing growth, albeit at more moderate levels.” In March 2012, Standard & Poor’s affirmed its AA- rating with a stable outlook.

Financial Policies

Fluvanna continues to adhere to a conservative fund balance policy that maintains unassigned fund balance at a minimum of 12% of General Fund revenues plus component unit School Fund revenues less the operating transfer from the General Fund.

MAJOR INITIATIVES

For fiscal year 2013, following the priorities established by the County of Fluvanna Board of Supervisors, and with the assistance and guidance of the County Administrator, County staff and agencies implemented and continued a number of specific projects designed to provide County residents with cost efficient government while enhancing their home and employment environment. Major initiatives begun, continued, or completed during this fiscal year are:

New High School

In April 2009, the School Board broke ground on the construction of a \$71 million new high school on Pleasant Grove. The new high school was designed with an initial capacity of 1,500 students with the flexibility to expand the capacity to 1,750 and eventually to 2,500 students in the future. Doors to the new high school opened in August 2012 with a student enrollment of 1,454.

Pleasant Grove Manor House Rehabilitation Project

Pleasant Grove consists of just less than 1,000 acres located on Route 53 just west of the intersection of U.S. 15 and Route 53. The manor house in 2004 was officially entered into the Virginia Landmarks Register and National Register of Historic Places. The adaptive reuse project includes 1) rehabilitation of the exterior of the house, 2) renovation of portions of the interior for a Visitors Center to showcase the history of the historic Rivanna River Canal Navigation system which served as the primary mode of transportation in the late 18th and early 19th centuries, and 3) construction of a new architecturally compatible two-story addition. In collaboration with the Fluvanna Historical Society, funds totaling \$851,250 were raised through Federal, State, and Private grants including a County appropriation of \$150,000. Rehabilitation began in July 2013.

Municipal Software

In the FY 2010 the Board of Supervisors appropriated \$427,000 for the purchase of a financial management software and hardware. In May 2010, the Board of Supervisors awarded a contract to Tyler Technologies. The new system is a comprehensive financial solution including general ledger, budgeting, GASB 34 reporter, HR/payroll, revenues including VA Tax, and utility billing. Project implementation began in August 2010. The financial module including general ledger, budgeting, purchasing, and accounts payable went live April 2011. Completion of implementation is targeted for spring of 2014.

Fork Union Firehouse

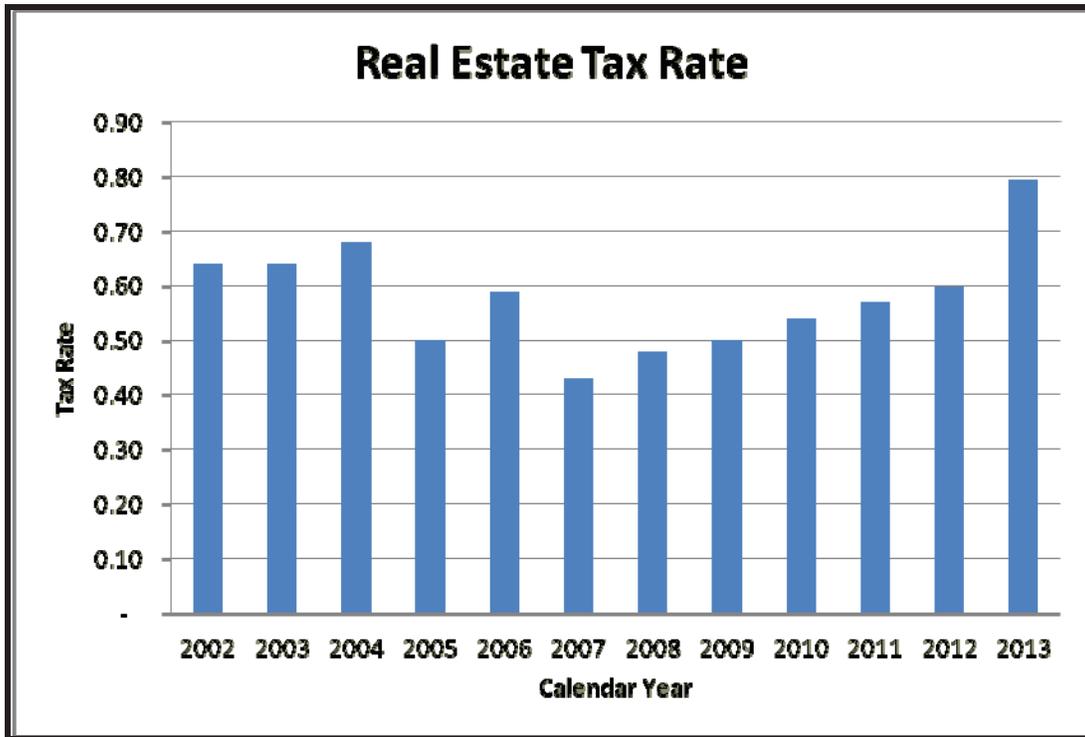

The Board of Supervisors authorized in 2009 the construction of the Fork Union Firehouse. The Firehouse is built next to the Fluvanna Community Center on Route 15. The County received an award from the American Recovery and Reinvestment Act (ARRA) Federal Emergency Management Agency for \$1.4 million with a cash match of \$360,000 for a total project cost of \$1.8 million. This project was awarded September 2009 and completed in June 2013.

Bond Refinancing

In December 2012 the County completed the refinancing of \$55.4 million of its 2008 School General Obligation Bonds. The result of refunding these bonds is a reduction in debt service of \$10.5 million over the next 17 years or an economic gain (the net present value of savings) of \$7.7 million.

PROSPECTS FOR THE FUTURE

For the fiscal year 2014, the Board of Supervisors approved an operating budget of \$65.2 million inclusive of a General Fund budget of \$40.5 million and a school fund budget of \$34.5 million. The Board of Supervisors elected to increase the real estate tax rate to \$0.795 per \$100 of assessed value for calendar year 2013. Below is a historical real estate tax rate graph for the County.

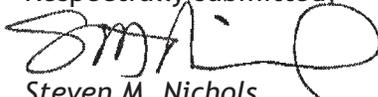

Awards and Acknowledgments

The Governmental Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting (CAFR) to the County of Fluvanna for its comprehensive annual financial report for the fiscal year ended June 30, 2012. This is the sixth year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the cooperation and dedication of the staff of the Fluvanna County Finance Department, Robinson Farmer Cox Associates, and all County agencies and departments that assisted and contributed to the preparation of this Report. Credit also must be given to the Board of Supervisors for their unwavering support for maintaining the highest standards of professionalism in the management of Fluvanna County's finances.

Respectfully submitted,

Independent Auditors' Report

**To the Honorable Members of the Board of Supervisors
County of Fluvanna, Virginia**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of County of Fluvanna, Virginia, as of and for the year ended Financial June 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Fluvanna, Virginia, as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 1.R to the financial statements, in 2013, the County adopted new accounting guidance, GASB Statement Nos. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5-14, budgetary comparison information, and schedule of pension and OPEB funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Fluvanna, Virginia's basic financial statements. The introductory section, other supplementary information, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2013, on our consideration of the County of Fluvanna, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Fluvanna, Virginia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**To the Honorable Members of the Board of Supervisors
To the Citizens of Fluvanna County
County of Fluvanna, Virginia**

The management of the County of Fluvanna, Virginia presents the following discussion and analysis as an overview of the County's financial activities for the fiscal year ended June 30, 2013. We encourage readers to read this discussion and analysis in conjunction with the transmittal letter in the Introductory Section of this report, and the County's financial statements which follow this discussion and analysis.

Financial Highlights

- The assets and deferred outflows of the County exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$43.8 million (net position). Of this amount, \$21.6 million (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The County's total net position increased by \$1.9 million, of which the governmental activities increased by \$2.1 million and business-type activities decreased by \$200,000.
- As of the close of fiscal year 2013, the County's governmental funds reported combined ending fund balances of \$22.4 million (Exhibit 3). Approximately 46% of this amount (\$10.3 million) is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, unrestricted fund balance (the total of committed, assigned, and unassigned components of fund balance) for the general fund was \$21.6 million, or approximately 60% of total general fund expenditures.
- The County's total outstanding debt increased by \$8.4 million during the current fiscal year primarily as a result of the refinancing of general obligation bonds.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components:

1. Government-wide financial statements,
2. Fund financial statements, and
3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Overview of the Financial Statements: (Continued)

Government-Wide Financial Statements

The *government-wide financial statements* (Exhibits 1 and 2) are designed to report information about the County as a whole using accounting methods similar to those found in the private sector. They also report the County's net position and how it has changed during the fiscal year. These statements provide both short-term and long-term information about the County's overall financial status.

The *statement of net position* (Exhibit 1) presents information on all of the County's assets, liabilities, and deferred inflows/outflows of resources including governmental activities, business-type activities, and component unit activities. Net position is the difference between assets and deferred outflows and liabilities and deferred inflows, which provides a measure of the County's financial health, or financial condition. Over time increases or decreases in the net position may serve as an indicator of whether the County's financial condition is improving or deteriorating. Other non-financial factors will also need to be considered, such as changes in the County's property tax base and the condition of the County's facilities.

The *statement of activities* (Exhibit 2) presents information using the accrual basis of accounting, and shows how the County's net position changed during the fiscal year. All of the current year's revenues and expenses are shown in this statement, regardless of when cash is received or paid. The Statement of Activities presents expenses before revenues to emphasize that the government's revenue is generated for the express purpose of providing services.

In the government-wide financial statements, the County's activities are divided into three categories:

Governmental activities: Most of the County's basic services are reported here, including general governmental; judicial administration; public safety; public works; health and welfare; education; parks, recreation and cultural; and community development. These activities are financed primarily by property taxes, other local taxes, and Federal and State grants.

Business-type activities: The County charges fees to users to cover all, or a significant portion, of the costs associated with the provision of certain services. These business-type activities of Fluvanna County are intended to be self-supporting and include the Fork Union Sanitary District and the sewer program.

Component units: The County has two component units, the Fluvanna County Public Schools (School Board) and the Economic Development Authority of Fluvanna County, which are included in this annual financial report. Although legally separate, the discretely presented component units are important because the County is financially accountable for them. A primary government is accountable for an organization if the primary government is able to impose its will on the organization or the organization is capable of imposing specific financial burdens on the primary government. The County approves debt issuances to finance School Board assets and provides significant funding for its operation. Additional information on the component units can be found in Note 1 of the Notes to Financial Statements section of this report.

Fund Financial Statements

These statements focus on individual parts of the County's government, reporting the County's operations in more detail than the government-wide statements. Funds are used to ensure compliance with finance-related legal requirements and are to keep track of specific sources of revenue and expenses for particular purposes. The County has three kinds of funds:

Overview of the Financial Statements: (Continued)

Fund Financial Statements: (Continued)

Governmental funds – Most of the County’s basic services are included in governmental funds, which focus on (1) the inflows and out flows of cash and other financial assets that can be readily converted to cash, and (2) the balances remaining at year-end that are available for spending. The governmental funds financial statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the County’s programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided with the fund financial statements to explain the relationship (or differences). The County has two major funds, the General Fund and the Capital Projects Fund. The General fund is the main operating account of the County and therefore, the largest of the governmental funds. The Capital Projects Fund is used to account for major capital projects, primarily construction related. It provides control over resources that have been segregated for specific capital projects. All other governmental funds, which include special revenue funds, are collectively referred to as non-major governmental funds.

The County adopts an annual appropriated budget for its Governmental funds. A budgetary comparison statement has been provided for the General Fund and Capital Projects Fund to demonstrate compliance with this budget.

Proprietary funds – The County maintains two types of Proprietary Funds: enterprise and internal service. Enterprise funds are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its water and sewer programs. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer activities, which are considered to be major funds of the County. Internal service funds are an accounting device used to accumulate and allocate for the County’s healthcare activities.

Fiduciary funds – The County is the trustee, or fiduciary, for the County’s *agency funds*. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County’s fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The County excludes these activities from the County’s government-wide financial statements because the County cannot use these assets to finance its operations. Agency funds are County custodial funds used to provide accountability of client monies for which the County is custodian.

Notes to the financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statement and accompanying notes, this report also presents certain *required supplementary information* for budgetary comparison schedules and presentation of combining financial statements for the discretely presented component unit School Board. The School Board does not issue separate financial statements.

Government-wide Overall Financial Analysis

Statement of Net Position

Table 1 summarizes the Statement of Net Position (Exhibit 1 in the Financial Section of the CAFR) for the primary government as of June 30, 2013 and 2012.

Table 1

County of Fluvanna, Virginia
Summary of Net Position
(\$ in millions)

	Primary Government					
	Governmental Activities		Business-type Activities		Total	
	2013	2012	2013	2012	2013	2012
Current and other assets	\$ 40.0	30.4	\$ 0.2	0.3	\$ 40.2	\$ 30.7
Capital assets	105.9	104.3	5.6	5.8	111.5	110.1
Total assets	<u>\$ 145.9</u>	<u>\$ 134.7</u>	<u>\$ 5.8</u>	<u>\$ 6.1</u>	<u>\$ 151.7</u>	<u>\$ 140.8</u>
Total deferred outflows of resources	\$ 17.5	-	-	-	\$ 17.5	-
Long-term liabilities outstanding	\$ 102.5	85.4	\$ 1.4	1.5	\$ 103.9	\$ 86.9
Other liabilities	7.7	11.8	0.2	0.2	7.9	12.0
Total liabilities	<u>\$ 110.2</u>	<u>\$ 97.2</u>	<u>\$ 1.6</u>	<u>\$ 1.7</u>	<u>\$ 111.8</u>	<u>\$ 98.9</u>
Total deferred inflows of resources	\$ 13.6	-	-	-	\$ 13.6	-
Net position:						
Net investment in capital assets	\$ 18.1	17.8	\$ 4.1	4.2	\$ 22.2	\$ 22.0
Unrestricted	21.5	19.7	0.1	0.2	21.6	19.9
Total net position	<u>\$ 39.6</u>	<u>\$ 37.5</u>	<u>\$ 4.2</u>	<u>\$ 4.4</u>	<u>\$ 43.8</u>	<u>\$ 41.9</u>

As noted earlier, over time, net position may serve as a useful indicator of a County's financial position. The County's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$43.8 million at the close of the most recent fiscal year. The County's overall net position increased \$1.9 million from the prior year. The reasons for this overall increase are discussed in the following sections for governmental and business-type activities.

The County's investment in capital assets of \$22.2 million, or 50.8% of total net position, reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles, and infrastructure) less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens, like schools, libraries, law enforcement, fire and emergency medical services. Consequently, these assets are *not* available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities (i.e., the County's investment in capital assets is of a permanent nature, as assets acquired are generally not sold or otherwise disposed of during their useful life).

The remaining \$21.6 million balance of net position is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

Government-wide Overall Financial Analysis: (Continued)

Statement of Activities

Table 2 summarizes the Statement of Activities (Exhibit 2 in the Financial Section of the CAFR) for the primary government.

Government-wide Overall Financial Analysis: (Continued)

During the current fiscal year, net position for governmental activities increased \$2.1 million from the prior fiscal year for an ending balance of \$39.6 million. Revenues increased \$1.2 million in the current fiscal year. Key revenue elements include:

- The County received a \$1.3 million Federal grant to construct the Fork Union Fire Station in the current fiscal year.
- The County increased the real property tax rate from \$0.5981 in calendar year 2012 to \$0.795 in calendar year 2013. An assessment completed in 2012 effective for January 1, 2013, resulted in a 25% decrease in property values from the previous assessment year of 2007. The new tax rate was set at an approximately revenue neutral rate. The increase of \$600,000 in general property taxes was due to higher than anticipated collection of delinquent taxes.

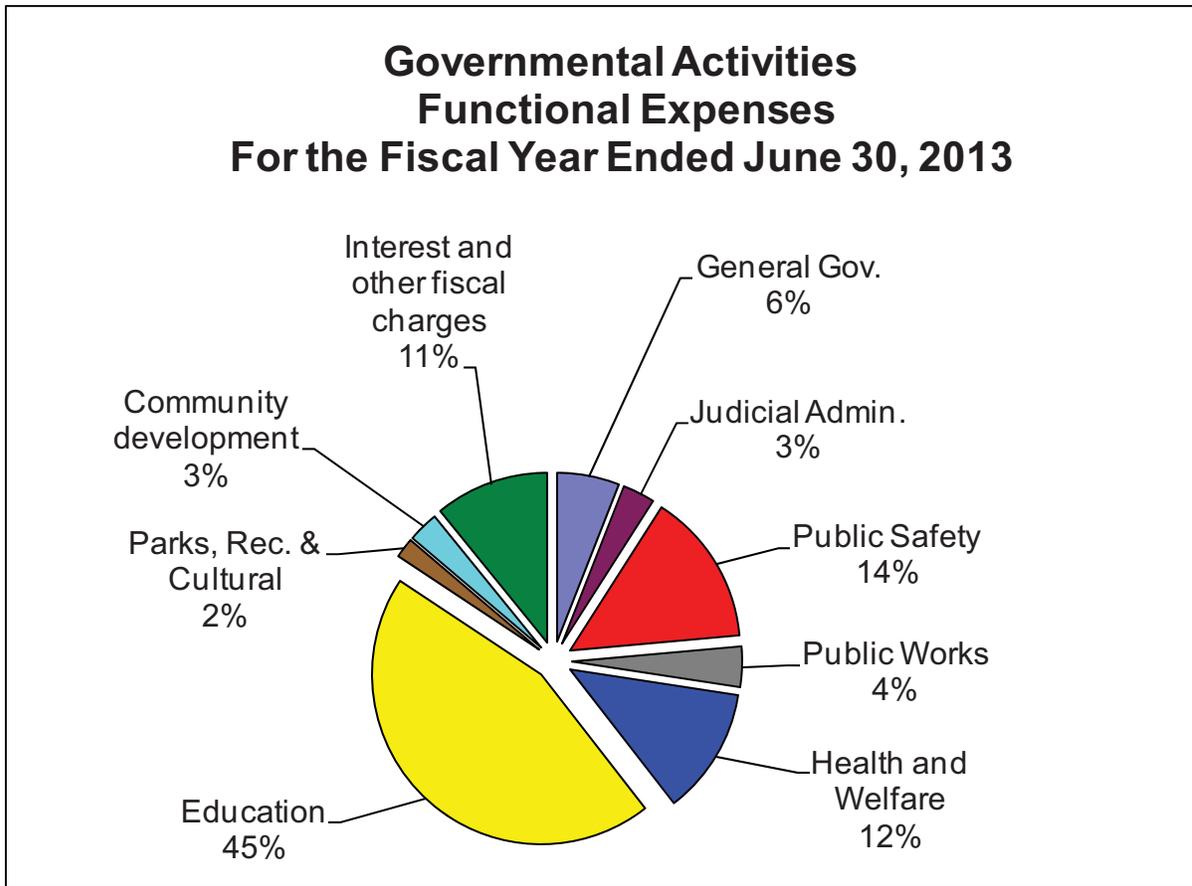

For the fiscal year June 30, 2013, the expenses for governmental activities totaled \$37.9 million, an increase of \$300,000 compared to the prior year. Key expense elements include:

- General government administration expenses decreased \$700,000 primarily as a result of decreased capital spending.
- Health and welfare expenses declined \$700,000 as a result of capitalized construction.
- Education expenses increased \$2.1 million as a result of increased depreciation costs.
- Interest and other fiscal charges decreased as a result of debt refinancing.

Government-wide Overall Financial Analysis: (Continued)

The following graph illustrates the County’s expenses for each functional area comprising its governmental activities. Education continues to be the County’s largest program and highest priority with Public Safety and Health and Welfare the County’s second largest expenses.

Business-Type Activities – For the County’s business-type activities, the results were a \$200,000 decrease in net position from the prior fiscal year for an ending balance of \$4.2 million. While revenues and expenses were virtually unchanged from the previous fiscal year, expenses continue to outpace revenues by \$300,000. A transfer from the General Fund of \$100,000 resulted in the \$200,000 decrease in net position.

Financial Analysis of the Governmental Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the County’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources.

Financial Analysis of the Governmental Funds: (Continued)

Governmental Funds

At June 30, 2013, the County's governmental funds reported combined ending fund balances of \$22.4 million (Exhibit 3), a decrease of \$500,000 in comparison with the prior year. Of the \$22.4 million fiscal year 2013 fund balance, \$500,000 is classified as restricted to indicate that it can only be spent for specific purposes as stipulated by external resource providers such as debt covenants. \$11.3 million is classified as committed to indicate that it has been set aside for specific purposes by the County's Board of Supervisors, and \$10.3 million is unassigned or available for any purpose but maintained at targeted levels in accordance with sound financial management practices.

The General Fund is the main operating fund of the County. The fund balance of the General Fund increased \$1.4 million (Exhibit 4) to \$21.6 million during fiscal year 2013, of which \$11.3 million is committed and \$10.3 is unassigned. The increase in the fund balance was due primarily to decreased debt service as a result of debt refinancing which will be discussed in the debt section below. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total General Fund revenues. Unassigned fund balance represents 26% of General Fund revenues for fiscal year 2013. The Board of Supervisors uses a policy to maintain unassigned General Fund balance at a minimum of 12% of the total General Fund revenues and component unit – school board operating revenues reduced by the General Fund contribution. The unassigned fund balance in the General Fund exceeds this guideline by \$3.1 million.

The fund balance in the Capital Projects Fund decreased \$2 million to \$0.7 million during fiscal year 2013 primarily as a result of the new high school capital project for which funding has been received in prior years.

Proprietary Funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Operations of the proprietary funds were included in the discussion of business-type activities.

General Fund Budgetary Highlights

General fund budget amendments resulted in an increase of \$1.8 million between the original budget and the final budget. Significant appropriations included:

- \$1.4 million to Education for operations;
- \$300,000 to the Capital Projects Fund for School Technology projects
- \$150,000 to the Board of Supervisors for increased legal fees.

Capital Asset and Debt Administration

Capital assets

The County's investment in capital assets as of June 30, 2013 totals \$111.5 million, net of accumulated depreciation. This represents an increase of \$1.4 million, or 1.3% over fiscal year 2012. Capital assets are illustrated in Table 3 below.

Table 3

(\$ in millions)

			Totals at June 30	
			2013	2012
	Governmental Activities	Business-type Activities		
Land and improvements	\$ 1.5	\$ 0.3	\$ 1.8	1.8
Construction in progress - jointly owned	-	-	-	80.2
Construction in progress	1.3	-	1.3	1.3
Subtotal, capital assets not being depreciated	\$ 2.8	\$ 0.3	\$ 3.1	83.3
Buildings and improvements	\$ 20.1	\$ -	\$ 20.1	17.9
Equipment	6.3	0.2	6.5	5.7
Infrastructure	-	6.9	6.9	6.9
Jointly owned assets	90.5	-	90.5	9.0
Subtotal, capital assets being depreciated	\$ 116.9	\$ 7.1	\$ 124.0	39.5
Less: accumulated depreciation	\$ 13.8	\$ 1.8	\$ 15.6	12.7
Net capital assets being depreciated	\$ 103.1	\$ 5.3	\$ 108.4	26.8
Governmental activities capital assets, net	\$ 105.9	\$ 5.6	\$ 111.5	110.1

Major capital asset activity during the current fiscal year included completion and capitalization of the new Fluvanna County High School.

Additional information on the County's capital assets can be found in Note 6 of this report.

Long-term debt

Table 4 illustrates the County's outstanding debt at June 30, 2013.

(\$ in millions)

			Total
General obligations bonds	\$ 93.3	\$ -	\$ 93.3
Public facility bonds	3.9	-	3.9
Utility bonds	-	1.4	1.4
Capital lease obligations	1.1	-	1.1
Total long-term debt	\$ 98.3	\$ 1.4	\$ 99.7

The County has adopted two debt ratios as a management tool. The first ratio adopted limits the annual general governmental debt service to no more than 12 % of total General Fund revenues. In fiscal year 2013, the County's debt service to revenue ratio was 15%. The second ratio is the net general obligation of debt to assessed value which should not exceed 3.5 percent. This ratio measures the relationship between County's tax-supported debts to the taxable value of property in the County. In fiscal year 2013, this ratio was 2.35 percent (Table 10).

Capital Asset and Debt Administration: (Continued)

Long-term debt: (Continued)

The County issued \$66.1 million of School General Obligation Refunding bonds to advance refund \$55.0 million of the 2008 School General Obligation Bonds. In addition the County did a current refunding of its 2007 Public Facility Note (\$2.7 million) and its 2010 Public Facility Note. The results include an increase in Governmental debt of \$8.4 million, and reduction in debt service over the next 17 years of \$10.7 million and a one-time savings in debt service in fiscal year 2013 of \$1.4 million.

Additional information on the County's long-term debt can be found in Note 7 of this report.

Economic Factors and Next Year's Budgets and Rates

Economic Factors

The local unemployment rate was 4.9% at June 30, 2013, a modest improvement from 5.1% at June 30, 2012. The local unemployment rate compares favorably to the State's rate of 5.9% and national rate of 7.6% for the same period.

A county-wide real estate assessment was conducted in calendar year 2013, the first in six years. Fluvanna County experienced significant declines in real property values of approximately 25% mirroring the experience of other localities in Virginia and the country. The next reassessment will be completed in 2015, and modest increases in property values are expected.

The County continues to maintain unassigned fund balances in excess of policy and a conservative pay as you go approach to capital projects by committing fund balance for significant capital projects such as a planned upgrade to the current emergency communication system.

Fiscal Year 2013 Budget and Rates

For the fiscal year ending June 30, 2014, the adopted budget is \$65.1 million, a decrease of \$1.0 million from fiscal year 2013.

For calendar year 2013 the real estate tax rate increased from \$0.5981 to \$0.795 per \$100 of assessed value.

Key factors that are expected to impact future budgets include:

- Continued recovery of the economy.
- Federal and State funding.
- Reassessment of real property in 2015.

Requests for Information

This financial report is designed to provide a general overview of the County of Fluvanna, Virginia's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, 132 Main Street, Fluvanna, Virginia 22963.

Total liabilities, deferred inflows of resources and fund balances	<u>\$ 38,264,296</u>	<u>\$ 1,488,620</u>	

Detailed explanation of adjustments from fund statements to government-wide statement of net position:

When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the County as a whole.	\$ 105,886,522
The net other postemployment benefits asset is not an available resource and, therefore, is not reported in the funds.	229,616
Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.	(1,906,594)
Because the focus of governmental funds is on short-term financing, some assets will not be available to pay current-period expenditures. Those assets (for example, receivables) are offset by unavailable revenues in the governmental funds and thus are not included in the fund balance.	2,102,145
Long-term liabilities applicable to the County's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities--both current and long-term--are reported in the statement of net position.	<u>(89,145,297)</u>
Net position of General Government Activities	<u>\$ 39,546,584</u>

The accompanying notes to financial statements are an integral part of this statement.

Reconciliation of Statement of Revenues, Expenditures and Changes in Fund Balances
to the Statement of Activities - Governmental Funds
For the Year Ended June 30, 2013

	<u>Primary Government Governmental Funds</u>
Amounts reported for governmental activities in the Statement of Activities are different because:	
Net change in fund balances - total governmental funds	\$ (491,119)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current period. The following details support this adjustment.	
Capital outlay	\$ 5,434,874
Depreciation expense	<u>(3,136,240)</u> 2,298,634
Transfer of joint tenancy assets from Primary Government to the Component Unit	(744,894)
Internal service funds are used by the County to charge the costs of health insurance costs to individual funds. The net revenue (expense) of internal service funds is reported with governmental activities.	148,675
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. Details of this item consist of the change in unavailable taxes.	2,195
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. A summary of items supporting this adjustment is as follows:	
Proceeds from debt issued	\$ (78,345,884)
Principal retired on school general obligation bonds	57,500,484
Principal retired on public facility bonds	1,748,600
Principal retired on public facility note	2,704,077
Principal retired on capital lease obligations	263,465
Principal retired on state literary fund loans	475,594
Deferred amount on refunding	17,354,981
Landfill postclosure costs	18,818
Amortization of bond discount	(31,697)
Amortization of bond premium	<u>367,636</u> 2,056,074
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. The following is a summary of items supporting this adjustment:	
Change in compensated absences	\$ (10,764)
Change in net other post-employment benefits asset	40,596
Change in accrued interest payable	<u>(1,237,823)</u> (1,207,991)
Change in net position of governmental activities	<u>\$ 2,061,574</u>

The accompanying notes to financial statements are an integral part of this statement.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The County of Fluvanna, Virginia is governed by an elected five member Board of Supervisors. The Board of Supervisors is responsible for appointing the County Administrator. The County provides a full range of services for its citizens. These services include sheriff and volunteer fire protection, recreational activities, cultural events, education, and social services.

The financial statements of the County of Fluvanna, Virginia have been prepared in conformity with the specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the government's accounting policies are described below.

Government-wide and Fund Financial Statements

Government-wide Financial Statements

The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its components unit. For the most part, the effect of interfund activity has been removed from these statements. However, interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

Statement of Net Position

The Statement of Net Position is designed to display financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments report all capital assets in the government-wide Statement of Net Position and report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government is broken down into three categories: 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Activities

The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Budgetary Comparison Schedules

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments provide budgetary comparison information in their annual reports, including the requirement to report the government's original budget in addition to the comparison of final budget and actual results.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the County of Fluvanna, Virginia (the primary government) and its component units. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

B. Individual Component Unit Disclosures

Blended component Units:

The County has no blended component units.

Discretely Presented Component Units:

School Board: The School Board operates the County Public School System. Members are currently elected by popular vote. The School Board adopts an annual budget for the schools. The School Board submits an appropriation request to the Board of Supervisors. The Board of Supervisors can decline to fund the entire appropriation which they adopt (as modified) in the annual County Budget. A separate financial report for the School Board is not prepared.

Economic Development Authority: The Economic Development Authority of Fluvanna County, Virginia (the EDA) was established by the Fluvanna County Board of Supervisors pursuant to the Industrial Development and Revenue Bond Act (Chapter 33, Title 15.1, Code of Virginia of 1950, as amended) so that such authorities may be able to promote industry and develop trade in the Commonwealth. The County appoints the board members of the EDA. The EDA does not issue separate financial statements.

Other Related Organizations included in the County's CAFR: None

COUNTY OF FLUVANNA, VIRGINIA

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) which are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 60 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the County, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the County.

Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when cash is received by the government.

The County's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

In the fund financial statements, financial transactions and accounts of the County are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The government reports the following major governmental funds:

a. General Fund

The General Fund is the primary operating fund of the County. This fund is used to account for and report all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board.

b. Capital Projects Fund

The Capital Projects Fund (Capital Improvements) accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments.

2. Proprietary Funds

Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The Proprietary Fund measurement focus is based upon determination of net income, financial position, and changes in financial position. Proprietary Funds consist of Enterprise Funds and Internal Service Funds.

Enterprise Funds

Enterprise Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Enterprise funds consist of Fork Union Sanitary District (F.U.S.D.), and Sewer.

Internal Service Funds - The Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the County government. The Internal Service Funds consist of the County Health Insurance Fund.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

3. Fiduciary Funds (Trust and Agency Funds)

Fiduciary Funds (Trust and Agency Funds) account for assets held by the County unit in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Agency Funds. These funds utilize the accrual basis of accounting. Fiduciary funds are not included in the government-wide financial statements. The County's only Agency Fund is the Special Welfare Fund. The County's only Trust Fund is the Other Post Employment Benefits Fund.

D. Budgets and Budgetary Accounting

The following procedures are used by the County in establishing the budgetary data reflected in the financial statements:

1. Prior to March 30, the County Administrator submits to the Board of Supervisors a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.
4. The Appropriations Resolution places legal restrictions on expenditures at the function level. The appropriation for each department or category can be revised only by the Board of Supervisors. The County Administrator is authorized to transfer budgeted amounts within general government departments; and the School Board is authorized to transfer budgeted amounts within the school system's categories.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund and the Capital Project Fund. The School Fund is integrated only at the level of legal adoption.
6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
7. Appropriations lapse on June 30, for all County units.
8. All budgetary data presented in the accompanying financial statements is the original to the current comparison of the final budget and actual results.

E. Cash and Cash Equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

F. Investments

Investments are stated at fair value which approximates market; no investments are valued at cost. Certificates of deposit and short-term repurchase agreements are reported in the accompanying financial statements as cash and cash equivalents. Investments consist of assets held by a trustee. Bond proceeds

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

F. Investments: (Continued)

are maintained to comply with the provisions of the Internal Revenue Tax Code and various bond indentures. Bond proceeds are deposited in the State Non-Arbitrage Program (SNAP). Values of shares in the SNAP reflect fair value. Capital lease proceeds are held in escrow and deposited in money market funds.

State statutes authorize the County government and the School Board to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the Local Government Investment Pool.

G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The County calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$186,075 at June 30, 2013 and is comprised of the following:

Fork Union Sanitary District	\$	4,588
Sewer		1,913
Property Taxes		<u>179,574</u>
Total	\$	<u><u>186,075</u></u>

Property Tax Calendar

The County collects real and personal property taxes semiannually. Real and personal property taxes are levied as of January 1 for a calendar year and are due on June 5 and December 5; penalties and interest accrue on all unpaid balances as of these dates. Unpaid real and personal property taxes constitute a lien against the property as of the due date of the tax. The County bills and collects its own property taxes.

H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

I. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as land, buildings, road registered vehicles, and equipment with an initial individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

I. Capital Assets: (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. There was no interest capitalized in the year ended June 30, 2013.

Property, plant and equipment and infrastructure of the primary government, as well as the component unit, is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40 to 50
Building improvements	30 to 40
Vehicles and equipment	5 to 10
Water and sewer system	20 to 50
Buses	12

J. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as an expense in the Statement of Activities and a long-term obligation in the Statement of Net Position. In accordance with the provisions of Government Accounting Standards No. 16, *Accounting for Compensated Absences*, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

K. Long-term Obligations

In the government-wide financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, during the current period. The face amount of debt issued and premiums are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

L. Fund Balances

Financial Policies

The Board of Supervisors meets on a monthly basis to manage and review cash financial activities and to ensure compliance with established policies. It is the County's policy to fund current expenditures with current revenues and the County's mission is to strive to maintain a diversified and stable revenue stream to protect the government from problematic fluctuations in any single revenue source and provide stability to ongoing services. The County's unassigned General Fund balance will be maintained to provide the County with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

L. Fund Balances: (Continued)

Financial Policies: (Continued)

Under GASB 54, fund balances are required to be reported according to the following classifications:

Nonspendable fund balance – Includes amounts that cannot be spent because they are either not in spendable form, or, for legal or contractual reasons, must be kept intact. This classification includes inventories, prepaid amounts, assets held for sale, long-term receivables and corpus of a permanent fund.

Restricted fund balance – Constraints placed on the use of these resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or other governments; or are imposed by law (through constitutional provisions or enabling legislation).

Committed fund balance – Amounts that can only be used for specific purposes because of a formal action (resolution or ordinance) by the government's highest level of decision-making authority.

Assigned fund balance – Amounts that are constrained by the County's intent to be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body, another body (such as a Finance Committee), or by an official to whom that authority has been given. With the exception of the General Fund, this is the residual fund balance classification for all governmental funds with positive balances.

Unassigned fund balance – This is the residual classification of the General Fund. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification, as the result of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When fund balance resources are available for a specific purpose in more than one classification, it is the County's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the County's highest level of decision-making authority. The Board of Supervisors is the highest level of decision-making authority for the County that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as committed. The Board of Supervisors may also assign fund balance as it does through the adoption or amendment of the budget as intended for specific purpose. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment. Please see detail of County's Fund Balances on the following page.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

M. Net Position

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

N. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

O. Component Unit – School Board Capital Asset and Debt Presentation

By law, the School Board does not have taxing authority and, therefore, it cannot incur debt through general obligation bonds to fund the acquisition, construction or improvement of its capital assets. That responsibility lies with the County who issues the debt on behalf of the School Board. However, the Code of Virginia requires the School Board to hold title to the capital assets (buildings and equipment) due to their responsibility for maintaining the asset.

In the Statement of Net Position, this scenario presents a dilemma for the County. Debt issued on behalf of the School Board is reported as a liability of the primary government, thereby reducing the net position of the County. The corresponding capital assets are reported as assets of the Component Unit-School Board (title holder), thereby increasing its net position.

The Virginia General Assembly amended the Code of Virginia to allow a tenancy in common with the School Board whenever the locality incurs a financial obligation which is payable over more than one fiscal year for any school property. The tenancy in common terminates when the associated debt has been paid in full. For financial reporting purposes, the legislation permits the locality to report the portion of the school property related to any outstanding financial obligation, thus eliminating a potential deficit from financing capital assets with debt.

P. Net Position Flow Assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Q. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County only has one item that qualifies for reporting in this category. It is the deferred amount on refunding reported in the government-wide statement of net position.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (CONTINUED)

Q. Deferred Outflows/Inflows of Resources: (Continued)

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has one type of item that qualifies for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of amounts prepaid on the 2nd half installments and the 2nd half installment and is deferred and recognized as an inflow of resources in the period that the amount becomes available. This also includes uncollected property taxes due prior to June 30. Under the accrual basis, amounts prepaid on the 2nd half installments and the 2nd half installment are reported as deferred inflows of resources.

R. Adoption of Accounting Principles

Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, Statement No. 63 of the Governmental Accounting Standards Board

The County implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. This Statement provides guidance for reporting deferred inflows and deferred outflows of resources. The requirements of this Statement will improve financial reporting by standardizing the presentation of deferred outflows of resources and deferred inflows of resources and their effects on an entity's net position. With the implementation of this Statement, certain terminology has changed and financial statement descriptions have changed from "net assets" to "net position." The net equity reported in the financial statements was not changed as a result of implementing this Statement and no restatement of prior balances is required.

Items Previously Reported as Assets and Liabilities, Statement No. 65 of the Governmental Accounting Standards Board

The County implemented the financial reporting provisions of the above Statement for the fiscal year ended June 30, 2013. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The net position was restated by \$746,784 as disclosed in Note 20.

NOTE 2 - DEPOSITS AND INVESTMENTS:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act"), Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 2 - DEPOSITS AND INVESTMENTS: (CONTINUED)

Investments

Statutes authorize the County and School Board Component Unit to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP). Bond proceeds subject to arbitrage rebate are invested in the State Non-Arbitrage Program (See Note 1). Capital lease proceeds are held in escrow and invested in money market funds.

Credit Risk of Debt Securities

The County limits the investment of funds in Debt Securities to those with credit ratings of at least Aa3/AA-.

The County's rated debt investments as of June 30, 2013 were rated by Standard & Poor's and the ratings are presented below using Standard & Poor's rating scale.

Rated Debt Investments' Values				
Rated Debt Investments	Fair Value	AAAm	AAA	AA+
Commercial Paper	\$ 1,999,533	\$ -	\$ -	\$ 1,999,533
Local Government Investment Pool	1,001,413	1,001,413	-	-
Money Market Mutual Funds	539,518	-	539,518	-
Total	<u>\$ 3,540,464</u>	<u>\$ 1,001,413</u>	<u>\$ 539,518</u>	<u>\$ 1,999,533</u>

Interest Rate Risk

The County Investment Policy requires that investment cash flows be optimized to match expected cash flow needs and are limited to investments with an average life of 5 years or less.

Investment Maturities (in years)		
Investment Type	Fair Value	Less Than 1 Year
Money Market Mutual Funds	\$ 539,518	\$ 539,518
Local Government Investment Pool	1,001,413	1,001,413
Commerical Paper	1,999,533	1,999,533
Total	<u>\$ 3,540,464</u>	<u>\$ 3,540,464</u>

Custodial Credit Risk

The County's investments are all insured, registered in the County's name and held in an account in the County's name, or invested in an external investment pool.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 2 - DEPOSITS AND INVESTMENTS: (CONTINUED)

External Investment Pool

The fair values of the positions in the Local Government Investment Pool (LGIP) are the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP maintains a policy to operate in a manner consistent with SEC Rule 2a-7.

NOTE 3 - DUE FROM OTHER GOVERNMENTAL UNITS:

Receivables due from other governmental units consist of the following at June 30, 2013:

Health Insurance Fund	-	47,665
Capital Improvements Fund	1,865,746	-
Total	<u>\$ 2,042,148</u>	<u>\$ 2,042,148</u>

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 4 - INTERFUND OBLIGATIONS/TRANSFERS: (CONTINUED)

Transfers are used to (1) move revenue from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization.

NOTE 5 - DUE TO/FROM PRIMARY GOVERNMENT/COMPONENT UNIT:

There were no interfund obligations between the primary government and its component unit.

NOTE 6 - CAPITAL ASSETS:

The following is a summary of changes in capital assets for the fiscal year ended June 30, 2013:

Tenancy in Common – State legislation enacted in 2002, Section 15.2-1800.1 of the Code of Virginia, (1950), as amended, granted the County a tenancy in common with the School Board when the County incurs a financial obligation for school property which is payable over more than one fiscal year. For financial reporting purposes, the net book value of School capital assets financed by the County guaranteed debt is shown under the County up to the amount of outstanding debt. At June 30, 2013, the School component unit capital assets financed by the outstanding County guaranteed debt with a book value of \$86,375,807 were reported in the Primary Government as tenant in common with the School Board.

NOTE 7 - LONG-TERM OBLIGATIONS: (CONTINUED)

Advance Refunding of Debt

On December 20, 2012 the County issued \$66,120,000 of School General Obligation Refunding Bonds, Series 2012 to advance refund of School General Obligation Bond Series 2008. As a result the School General Obligation Bond Series 2008 are considered to be defeased in substance and the liability for these bonds has been removed from these financial statements.

The reacquisition price exceeded the carrying amount of the old debt by \$17,364,959.

This amount is being netted against the new debt and amortized over the life of the new debt issued, which is shorter than the remaining life of the refunded debt. This advance refunding was undertaken to reduce the total debt service payments over the next seventeen years by \$10,544,659 and resulted in an economic gain (loss) of \$7,680,362.

Current Refunding of Debt

On November 15, 2012 the county issued general obligation refunding bonds to currently refund its 2007 Public Facility Revenue Bond and 2010 Public Facility Revenue Note. This refunding was undertaken to reduce the total debt service over the next eleven years by \$163,087 and resulted in an economic gain of \$152,436.

Component Unit School Board

The following is a summary of long-term obligations for the fiscal year ended June 30, 2013:

	Amounts Payable at July 1, 2012	Increases	Decreases	Amounts Payable at June 30, 2013	Amounts Due Within One Year
Compensated absences	\$ 988,030	\$ 104,246	\$ 98,803	\$ 993,473	\$ 99,347
Total	<u>\$ 988,030</u>	<u>\$ 104,246</u>	<u>\$ 98,803</u>	<u>\$ 993,473</u>	<u>\$ 99,347</u>

The School Operating and School Cafeteria Funds are used to liquidate the School Board's compensated absences liability.

COUNTY OF FLUVANNA, VIRGINIA

NOTE 8 - DEFINED BENEFIT PENSION PLAN:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)
Identification of Plan: Agent and Cost-Sharing Multiple-Employer Defined Benefit Pension Plan
Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit. Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

VRS administers two defined benefit plans for local government employees – Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who were vested as of January 1, 2013 are covered under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit early at age 55 with at least 5 years of service credit or age 50 with at least 10 years of service credit.
- Members hired or rehired on or after July 1, 2010 and Plan 1 members who were not vested on January 1, 2012 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include sheriffs, deputy sheriffs and hazardous duty employees of political subdivisions that have elected to provide enhanced coverage for hazardous duty service. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provisions of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.70 %. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier for eligible political subdivision hazardous duty employees other than sheriffs and jail superintendents is 1.70% or 1.85% as elected by the employer. The multiplier for Plan 2 members was reduced to 1.65% effective January 1, 2013 unless they are hazardous duty employees and their employer has elected the enhanced retirement multiplier. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum Option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 8 - DEFINED BENEFIT PENSION PLAN: (CONTINUED)

A. Plan Description (Continued)

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at <http://www.varetire.org/Pdf/Publications/2012-annual-report.pdf> by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. In addition, the County and School Board are required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the Code of Virginia and approved by the VRS Board of Trustees. The County and School's contribution rate for the fiscal year ended 2013 were 12.85% and 7.99% of annual covered payroll.

The School Board's contributions for professional employees were \$3,869,200, \$2,666,276, and \$2,094,436 to the teacher cost-sharing pool for the fiscal years ended June 30, 2013, 2012 and 2011 respectively and these contributions represented 11.66%, 6.33%, and 3.93% respectively, of current covered payroll.

C. Annual Pension Cost

For fiscal year 2013, the County's annual pension cost of \$718,234 was equal to the County's required and actual contributions.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 8 - DEFINED BENEFIT PENSION PLAN: (CONTINUED)

C. Annual Pension Cost (Continued)

For fiscal year 2013, the School Board's annual pension cost for the Board's non-professional employees was \$168,377 which was equal to the School Board's required and actual contributions.

Three Year Trend Information for the County and School Board				
Fiscal Year Ending	Annual Pension Cost (APC) (1)	Percentage of APC Contributed	Net Pension Obligation	
County:				
June 30, 2013	\$ 718,234	100%	\$ -	
June 30, 2012	550,581	100%	-	
June 30, 2011	558,946	100%	-	
School Board Non-Professional:				
June 30, 2013	\$ 168,377	100%	\$ -	
June 30, 2012	106,814	100%	-	
June 30, 2011	107,190	100%	-	

(1) Employer portion only

The FY2013 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees, 3.75% to 6.20% per year for teachers, and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the County's and the School Board's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The County's and School Board's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2011 for the Unfunded Actuarial Accrued Liability (UAAL) was 30 years.

D. Funded Status and Funding Progress

As of June 30, 2012, the most recent actuarial valuation date, the County's plan was 75.19% funded. The actuarial accrued liability for benefits was \$18,246,720, and the actuarial value of assets was \$13,720,594, resulting in an unfunded actuarial accrued liability (UAAL) of \$4,526,126. The covered payroll (annual payroll of active employees covered by the plan) was \$5,111,931, and ratio of the UAAL to the covered payroll was 88.54%.

As of June 30, 2012, the most recent actuarial valuation date, the School Board's plan was 82.59% funded. The actuarial accrued liability for benefits was \$5,191,640, and the actuarial value of assets was \$4,287,701, resulting in an unfunded actuarial accrued liability (UAAL) of \$903,939. The covered payroll (annual payroll of active employees covered by the plan) was \$1,930,972, and ratio of UAAL to the covered payroll was 46.81%.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 8 - DEFINED BENEFIT PENSION PLAN: (CONTINUED)

D. Funded Status and Funding Progress (Continued)

The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

NOTE 9 - COMPENSATED ABSENCES:

In accordance with GASB Statement 16, *Accounting for Compensated Absences*, the County has accrued the liability arising from outstanding claims and judgments and compensated absences.

The County employees earn vacation and sick leave based on years of service at the rate of eight hours per month for each full-time employee with less than 5 years of service. Twenty-five percent of the unused sick leave or \$2,500 for County or \$5,000 for Social Services, whichever is less, will be paid to an employee who leaves county employment after five or more years of service. Accumulated vacation is paid upon termination based on length of employment as defined in the County's personnel policy. The County has accrued vacation and sick leave pay as follows:

Primary Government	\$	<u>484,841</u>
Enterprise Funds	\$	<u>33,452</u>
Component Unit School Board	\$	<u>993,473</u>

NOTE 10 – SELF INSURANCE/RISK MANAGEMENT:

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County contracts with the Virginia Association of Counties Municipal Liability Pool to provide insurance coverage for these risk losses. The County pays an annual premium to the association for its general workers compensation insurance coverage. In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The County continues to carry commercial insurance for all other risks of loss, including general liabilities and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The County administers an employee health insurance program. These insurance activities have been accounted for in an Internal Service Fund, the Health Insurance Fund.

Employee Health Insurance:

The County and School Board have contracted with private carriers to administer this activity. The County's Health Insurance Fund recognizes revenue from other fund charges and from other localities and agencies which participate in the County program. The interfund charges are reported as fund expenditures in the funds that have employees participating in the program. The Health Insurance Fund expenses represent premium payments to the private carrier. The premium payments are based on the number insured and benefits.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements

NOTE 10 – SELF INSURANCE/RISK MANAGEMENT: (CONTINUED)

Employee Health Insurance: (Continued)

Claims liability is reevaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors. Incurred but not reported claims have been accrued as a liability based upon prior history and estimates from the insurance carrier. Changes in the estimated claims liability for fiscal year 2013 is listed as follows:

<u>Funds</u>	<u>Estimated Claims Liability Beginning of Fiscal Year</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Estimated Claims Liability End of Fiscal Year</u>
Primary Government:				
Insurance Internal Service Fund				
2012	\$ -	\$ 1,314,882	\$ 1,132,411	\$ 182,471
2013	182,471	-	182,471	-
Component Unit School Board:				
School Operating and Health Insurance Funds				
2012	\$ -	\$ 3,121,861	\$ 2,879,194	\$ 242,667
2013	242,667	4,753,485	4,753,485	242,667

NOTE 11 – UNAVAILABLE/UNEARNED REVENUE:

	<u>Government-wide Statements Governmental Activities</u>	<u>Balance Sheet Governmental Funds</u>
Primary Government:		
Unavailable property tax revenue:		
Unavailable revenue representing uncollected property tax billings for which asset recognition criteria has not been met. The uncollected tax billings are not available for the funding of current expenditures.	\$ 13,454,847	\$ 15,556,992
Prepaid property tax revenues representing collections received for property taxes that are applicable to the subsequent budget year.	194,474	194,474
Total governmental activities	<u>\$ 13,649,321</u>	<u>\$ 15,751,466</u>

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 12 - CONTINGENT LIABILITIES:

Federal assistance programs in which the County and its component unit participate were audited in accordance with the provisions of the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Pursuant to the above provisions, major and non-major programs were tested for compliance with applicable grant requirements. While there are no items of non-compliance, as noted in the compliance report, the federal government may subject grant programs to additional compliance testing which may result in disallowances of current grant program expenditures. However, management believes that if any of these expenditures were disallowed it would be immaterial to the overall general-purpose financial statements.

NOTE 13 - LITIGATION:

At June 30, 2013, there were no matters of litigation involving the County which would materially affect the County's financial position should any court decisions on pending matters not be favorable to the County.

NOTE 14 - LANDFILL CLOSURE AND POSTCLOSURE CARE COST:

The County of Fluvanna, Virginia owns and operates a landfill site. State and federal laws and regulations require the County to place a final cover on each phase of its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste. In accordance with Statement 18 of the Governmental Accounting Standards Board entitled *Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs*, the County reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The \$832,089 reported as a landfill closure and postclosure care liability at June 30, 2013, represents the cumulative amount reported based on the use of 100% of the estimated capacity used of the landfill. The County has closed the landfill. These amounts are based on what it would cost to perform all closures and postclosure care in 2013. Actual closure and postclosure care costs may be higher due to inflation, changes in technology, or changes in regulations.

The County has demonstrated financial assurance requirements for closure and postclosure care and corrective action costs through the submission of a Local Government Financial Test to the Virginia Department of Environmental Quality in accordance with Section 9VAC20-70 of the Virginia Administrative Code.

The County plans to meet all federal laws, regulations and tests of financial assurance related to the financing of closure and postclosure care when they become effective.

NOTE 16 - TRUST FOR OTHER POST-EMPLOYMENT BENEFITS:

The County of Fluvanna has established a irrevocable trust pursuant to Section 15.2-1544 of the Code of Virginia, as amended for the purpose of accumulated and investing assets to fund Other Post-Employment Benefits (OPEB) and to participate in the Virginia Pooled OPEB Trust Fund and has established a Local Finance Board to become a Participating Employer in the Trust Fund. The Trust Fund provides administrative, custodial and investment services to the Participating Employers in the Trust Fund. For the fiscal year ending June 30, 2013 the County contributed \$111,700 to the Trust Fund. There have been no expenses allocated to the Trust Fund during the fiscal year ended June 30, 2013.

The County participates in the Virginia Pooled OPEB Trust Fund, an irrevocable trust established for the purpose of accumulating assets to fund postemployment benefits other than pensions. The Trust Fund issues a separate report, which can be obtained by requesting a copy from the plan administrator, Virginia Municipal League (VML) at P.O. Box 12164, Richmond, Virginia 23241.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 17—OTHER POSTEMPLOYMENT BENEFITS—HEALTH INSURANCE:

County:

A. Plan Description

The County Post-Retirement Medical Plan (CPRMP) is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. Retirees are eligible for postretirement medical coverage if they are a full-time employee who retires directly from the County and is eligible for retirement from VRS. The County's post-retirement medical plan does not issue a separate, audited GAAP basis report.

B. Funding Policy

The County establishes employer contribution rates for plan participants as part of the budgetary process each year. The County also determines how the plan will be funded each year whether it will partially fund the plan or fully fund the plan. Again this is determined annually as part of the budgetary process. Retirees pay 100 % of premiums. Coverage ceases when retirees reach the age of 65. Surviving spouses are not allowed access to the plan.

C. Annual OPEB Cost and Net OPEB Obligation

The annual cost of other post employment benefits (OPEB) under GASB 45 is calculated based on the annual required contribution or ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The County elected to prefund OPEB liabilities. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual required contribution	\$	35,900
Interest on net OPEB asset		675
Adjustment to annual required contribution		<u>(515)</u>
Annual OPEB cost (expense)	\$	36,060
Contribution made		<u>76,656</u>
Increase in net OPEB asset	\$	<u>(40,596)</u>
Net OPEB obligation-beginning of year		<u>(189,020)</u>
Net OPEB obligation-end of year	\$	<u><u>(229,616)</u></u>

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 17—OTHER POSTEMPLOYMENT BENEFITS—HEALTH INSURANCE: (CONTINUED)

County: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation (Continued)

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 and the two preceding years are as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Asset
June 30, 2013	\$ 36,060	-637%	\$ (229,616)
June 30, 2012	\$ 33,800	-559%	\$ (189,020)
June 30, 2011	\$ 84,156	100%	\$ -

D. Funded Status and Funding Progress

The funded status of the plan as of July 1, 2011 the most recent actuarial valuation date is as follows:

Actuarial accrued liability (AAL)	\$ 325,000
Actuarial value of plan assets	245,839
Unfunded actuarial accrued liability	79,161
Funded ratio (actuarial value of plan assets / AAL)	75.64%
Covered payroll (active plan members)	5,148,300
UAAL as a percentage of covered payroll	1.54%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

NOTE 17—OTHER POSTEMPLOYMENT BENEFITS—HEALTH INSURANCE: (CONTINUED)

County: (Continued)

E. Actuarial Methods and Assumptions (Continued)

Cost Method

The cost method for valuation of liabilities used for this valuation is the **Projected Unit Credit (PUC) Actuarial Cost Method**. A PUC accrued benefit is determined for each active member in the Plan on the basis of the member's average final compensation projected to the assumed date of retirement and the member's creditable service at the valuation date. The actuarial liability for retirement benefits is the sum of the actuarial present value of the PUC accrued benefit of each active member. The normal cost for retirement benefits is the sum of the actuarial present value for the expected increase in the PUC accrued benefit during the plan year for each active member under the assumed retirement age.

The actuarial liability and the normal cost for termination benefits, disability benefits, and pre-retirement spouse's death benefits are determined in a similar manner by projecting the member's average final compensation to each assumed date of termination, disablement, or death. The actuarial liability and normal cost for the supplemental benefits are based upon the present value of the expected supplement expected to be paid to those covered employees attaining eligibility. The actuarial liability for inactive members is determined as the actuarial present value of the pension and supplemental benefits expected to be paid.

The difference between the actuarial liability and the actuarial value of assets is the unfunded actuarial liability. The annual required contribution is the sum of the normal cost and the amount necessary to amortize the unfunded actuarial liability over the amortization period. The amortization amount is determined as a level percentage of payroll.

Interest Assumptions

In the July 1, 2011, actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 7.5 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 6.30 percent initially, reduced by decrements to an ultimate rate of 4.70 percent after ten years. Both rates included a 4.5 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at July 1, 2011, was thirty years.

At June 30, 2013 (Continued)

NOTE 17-OTHER POSTEMPLOYMENT BENEFITS-HEALTH INSURANCE: (CONTINUED)

School Board:

A. Plan Description

The School Board Post-Retirement Medical Plan (CPRMP) is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. Retirees are eligible for postretirement medical coverage if they are a full-time employee who retires directly from the County and is eligible for retirement from VRS. The School Board's Post-Retirement Medical Plan does not issue a separate, audited GAAP basis report.

B. Funding Policy

The School Board Post-Retirement Medical Plan (SBPRMP) is a single-employer defined benefit healthcare plan which offers health insurance for retired employees. Retirees are eligible for postretirement medical coverage if they are a full-time employee who retires directly from the School Board and is eligible for retirement from VRS.

C. Annual OPEB Cost and Net OPEB Obligation

The annual cost of other post employment benefits (OPEB) under GASB 45 is calculated based on the annual required contribution or ARC an amount actuarially determined in accordance with the parameters of GASB Statement 45. The estimated pay as you go cost for OPEB benefits is \$106,944 for fiscal year 2013. The School Board elected to pre-fund OPEB liabilities. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2013, the School Board's expected cash payment of \$106,944 is equal to the ARC. The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 and the two preceding years are as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2013	\$ 106,944	100% \$	-
June 30, 2012	99,200	100%	-
June 30, 2011	278,928	100%	-

NOTE 17—OTHER POSTEMPLOYMENT BENEFITS—HEALTH INSURANCE: (CONTINUED)

School Board:

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2011 the most recent actuarial valuation date is as follows:

Actuarial accrued liability (AAL)	\$	946,600
Actuarial value of plan assets		716,033
Unfunded actuarial accrued liability		230,567
Funded ratio (actuarial value of plan assets / AAL)		75.64%
Covered payroll (active plan members)		20,633,800
UAAL as a percentage of covered payroll		1.12%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Cost Method

The cost method for valuation of liabilities used for this valuation is the **Projected Unit Credit (PUC) Actuarial Cost Method**. A PUC accrued benefit is determined for each active member in the Plan on the basis of the member's average final compensation projected to the assumed date of retirement and the member's creditable service at the valuation date. The actuarial liability for retirement benefits is the sum of the actuarial present value of the PUC accrued benefit of each active member. The normal cost for retirement benefits is the sum of the actuarial present value for the expected increase in the PUC accrued benefit during the plan year for each active member under the assumed retirement age.

NOTE 18-VRS HEALTH INSURANCE CREDIT OTHER POSTEMPLOYMENT BENEFITS:

A. Plan Description

The County participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is an agent and cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service. The credit amount and eligibility differs for state, school division, political subdivision, local officer, local social services department and general registrar retirees.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 18–VRS HEALTH INSURANCE CREDIT OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

A. Plan Description (Continued)

An employee of the County, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$1.50 per year of creditable service up to a maximum monthly credit of \$45. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive the maximum monthly health insurance credit of \$45.

Benefit provisions and eligibility requirements are established by Title 51.1, Chapter 14 of the Code of Virginia. The VRS actuarially determines the amount necessary to fund all credits provided, reflects the cost of such credits in the applicable employer contribution rate pursuant to §51.1-145, and prescribes such terms and conditions as are necessary to carry out the provisions of the health insurance credit program. VRS issues separate financial statements as previously discussed in Note 8.

B. Funding Policy

As a participating local political subdivision, the County is required to contribute the entire amount necessary to fund participation in the program using the actuarial basis specified by the Code of Virginia and the VRS Board of Trustees. The County's contribution rate for the fiscal year ended 2013 was .10% of annual covered payroll.

C. OPEB Cost and Net OPEB Obligation:

The annual cost of OPEB under Governmental Accounting Standards Board (GASB) 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions, is based on the annual required contribution (ARC). The County is required to contribute the ARC, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For 2013, the County's contribution of \$3,282 was equal to the ARC and OPEB cost. The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013 and the two preceding years are as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2011	\$ 5,288	100%	\$ -
June 30, 2012	4,763	100%	-
June 30, 2013	3,282	100%	-

COUNTY OF FLUVANNA, VIRGINIA

Notes to Financial Statements
At June 30, 2013 (Continued)

NOTE 18–VRS HEALTH INSURANCE CREDIT OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2012, the most recent actuarial valuation date, is as follows:

Actuarial accrued liability (AAL)	\$	101,245
Actuarial value of plan assets		71,990
Unfunded actuarial accrued liability		29,255
Funded ratio (actuarial value of plan assets / AAL)		71.10%
Covered payroll (active plan members)		2,079,133
UAAL as a percentage of covered payroll		1.41%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future and reflect a long-term perspective. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The entry age normal cost method was used to determine the plan's funding liabilities and costs. The actuarial assumptions included a 7.0% investment rate of return, compounded annually, including an inflation component of 2.5%, and a payroll growth rate of 3%. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining open amortization period at June 30, 2012 was 29 years.

The Retiree Health Insurance Credit benefit is based on a member's employer eligibility and his or her years of service. The monthly maximum credit amount cannot exceed the member's actual health insurance premium costs. The actuarial valuation for this plan assumes the maximum credit is payable for each eligible member. Since this benefit is a flat dollar amount multiplied by years of service and the maximum benefit is assumed, no assumption relating to healthcare cost trend rates is needed or applied.

COUNTY OF FLUVANNA, VIRGINIA

NOTE 18-VRS HEALTH INSURANCE CREDIT OTHER POSTEMPLOYMENT BENEFITS: (CONTINUED)

F. Professional Employees – Discretely Presented Component Unit School Board:

The School Board participates in the Health Insurance Credit Program, a plan designed to assist retirees with the cost of health insurance coverage. This program is a cost sharing, multiple-employer defined benefit plan administered by the Virginia Retirement System (VRS). The Virginia General Assembly establishes the dollar amount of the health insurance credit for each year of creditable service.

A teacher, who retires under VRS with at least 15 years of total creditable service under the System and is enrolled in a health insurance plan, is eligible to receive a monthly health insurance credit of \$4 per year of creditable service. However, such credit shall not exceed the health insurance premium for the retiree. Disabled retirees automatically receive a monthly health insurance credit of \$4 multiplied by the smaller of (i) twice the amount of their creditable service or (ii) the amount of creditable service they would have completed at age 60 if they had remained in service to that age.

The School Board is required to contribute, at an actuarially determined rate, the entire amount necessary to fund participation in the program. The current rate is 1.10% of annual covered payroll. The School Board's contribution to VRS for the year ended June 30, 2013, was \$256,500, and equaled the required contributions for each year.

NOTE 19-RESTRICTED ASSETS:

Restricted assets at June 30, 2013 consist of the following:

	<u>Governmental Activities</u>
Cash for Capital Projects - New High School	\$ <u>519,759</u>
Total	\$ <u><u>519,759</u></u>

NOTE 20-RESTATEMENT OF NET POSITION:

Net Position was restated as follows at July 1, 2012:

	<u>Governmental Activities</u>
Net position, beginning of year, as previously reported	\$ 38,231,794
Unamortized debt issuance costs	<u>(746,784)</u>
Net position, beginning of year, as restated	\$ <u><u>37,485,010</u></u>

NOTE 21– UPCOMING PRONOUNCEMENTS:

The GASB has issued Statement No. 68, “Accounting and Financial Reporting for Pensions; an amendment of GASB Statement No. 27.” This Statement replaces the requirements of Statements No. 27 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014 (fiscal year ended June 30, 2015). The County has not determined the impact of this pronouncement on its financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

Note to Required Supplementary Information:

Presented budgets were prepared on the modified accrual basis of accounting which is in accordance with accounting principles generally accepted in the United States of America. The basis of budgeting is the same as generally accepted accounting principles.

Detailed explanation of adjustments from fund statements to government-wide statement of net position:

When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the School Board as a whole.	10,412,720
Internal service funds are used by the School Board to charge the cost of health insurance to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position. The internal service fund net position is:	(75,618)
Long-term liabilities applicable to the School Board's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the statement of net position.	<u>(993,473)</u>
Net position of General Government Activities	<u>\$ 9,416,398</u>

Combining Statement of Revenues, Expenditures and Changes in Fund Balances -

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities - Discretely Presented Component Unit - School Board
For the Year Ended June 30, 2013

	<u>Component Unit School Board</u>
Amounts reported for governmental activities in the statement of activities are different because:	
Net change in fund balances - total governmental funds	\$ 37,926
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the depreciation exceeded capital outlays in the current period. The following details support this adjustment.</p>	
Capital additions	\$ 473,311
Depreciation expense	<u>(653,738)</u> (180,427)
Internal service funds are used by the School Board to charge the costs of health insurance costs to individual funds. The net revenue of internal service funds is reported with governmental activities.	(503,389)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. This amount reflects the change in compensated absences.	(5,443)
Transfer of joint tenancy assets from Primary Government to the Component Unit	<u>744,894</u>
Change in net position of governmental activities	\$ <u><u>93,561</u></u>

COUNTY OF FLUVANNA, VIRGINIA

Tables

Financial Trends

These tables contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.

Net Position by Component	1
Changes in Net Position	2
Fund Balances of Governmental Funds	3
Changes in Fund Balances of Governmental Funds	4

Revenue Capacity

These tables contain information to help the reader assess the factors affecting the County's ability to generate its property and sales taxes.

Assessed Value and Estimated Actual Value of Taxable Property	5
Property Tax Rates	6
Principal Property Taxpayers	7
Property Tax Levies and Collections	8

Debt Capacity

These tables present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue debt in the future.

Ratios of Outstanding Debt by Type	9
Ratio of Net General Bonded Debt to Assessed Value and Net Bonded Debt Per Capita	10
Debt Policy Information	11

Demographic and Economic Information

These tables offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place and to help make comparisons over time and with other governments.

Demographic and Economic Statistics	12
Principal Employers	13

Operating Information

These tables contain information about the County's operations and resources to help the reader understand how the County's financial information relates to the services the County provides and the activities it performs.

Full-time Equivalent County Government Employees by Function	14
Operating Indicators by Function	15
Capital Asset Statistics by Function	16

Sources: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34 in fiscal year 2003; schedules presenting government-wide information include information beginning in that year.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

**To the Honorable Members of the Board of Supervisors
County of Fluvanna, Virginia**

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of County of Fluvanna, Virginia, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County of Fluvanna, Virginia's basic financial statements, and have issued our report thereon dated December 9, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered County of Fluvanna, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County of Fluvanna, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of County of Fluvanna, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether County of Fluvanna, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

**To the Honorable Members of the Board of Supervisors
County of Fluvanna, Virginia**

Report on Compliance for Each Major Federal Program

We have audited County of Fluvanna, Virginia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of County of Fluvanna Virginia's major federal programs for the year ended June 30, 2013. County of Fluvanna, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of County of Fluvanna, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about County of Fluvanna, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of County of Fluvanna, Virginia's compliance.

Opinion on Each Major Federal Program

In our opinion, County of Fluvanna, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of County of Fluvanna, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered County of Fluvanna, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of County of Fluvanna, Virginia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

COUNTY OF FLUVANNA, VIRGINIA

Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2013

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the County of Fluvanna, Virginia under programs of the federal government for the year ended June 30, 2013. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the County of Fluvanna, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County of Fluvanna, Virginia.

Note 2 - Summary of Significant Accounting Policies

(1) Expenditures on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Donation

Nonmonetary assistance is reported in the schedule at fair market value of the commodities received and disbursed.

Note 4 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the County's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:	
Primary government:	
General Fund	\$ 872,284
Capital Projects Fund	<u>1,273,986</u>
Total primary government	<u>\$ 2,146,270</u>
Component Unit School Board:	
School Operating Fund	\$ 1,786,122
School Cafeteria Fund	<u>594,551</u>
Total component unit school board	<u>\$ 2,380,673</u>
Total federal expenditures per basic financial statements	<u>\$ 4,526,943</u>
Total federal expenditures per the Schedule of Expenditures of Federal Awards	<u>\$ 4,526,943</u>

COUNTY OF FLUVANNA, VIRGINIA
